PRODUCT COMPARISON

Traditional roofs are temporary when compared to DECRA.

In an average lifetime, a homeowner will need to replace a traditional roof at least two-and-a-half times. With DECRA, there's no worrying about costly, unexpected expenses. Plus, DECRA's Lifetime Limited Warranty eliminates the hassle.

PROVEN HISTORY OF SURVIVING HARSH CONDITIONS

DECRA's roofing systems have excelled through some of the harshest weather conditions around the world for over 60 years. DECRA's interlocking panels are strong and non-combustible (Class A fire-rated), and they are covered by a transferable Lifetime Limited Warranty, including peace-of-mind coverage for winds up to 120 mph and is class IV impact resistant.

A DECRA roof is durable, freeze-thaw resistant, and will offer richness and beauty to enhance your home. For style and protection, DECRA is the obvious choice.

BENEFIT FROM ABOVE SHEATHING VENTILATION (ASV): DECRA Metal Roofing panels create an airspace between the panel and the roof deck thereby mitigating the amount of heat transferred into the structure so it remains cooler in the summer and reduces ice damming in the winter.

“This spring was much hotter than last year, but we used our air conditioning much less. Clearly, our house has stayed cooler with the addition of our DECRA roof.”

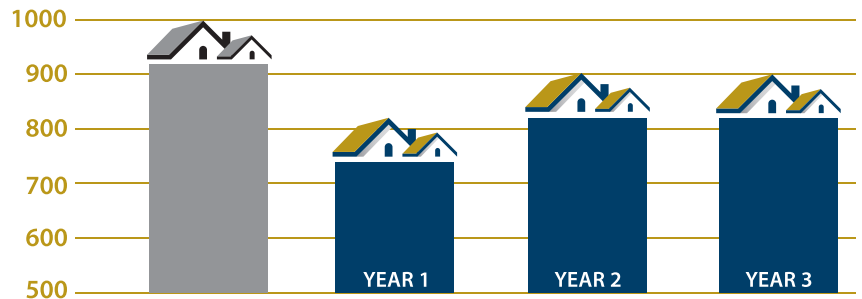

— Holly Summers
