

Classic Old-World Italian Grandeur

Barrel-style DECRA Villa Tile delivers the classic appeal of tile, capturing Old World Italian splendor without the shortcomings of conventional clay or concrete tiles.

Conventional tiles fracture easily and over time can absorb up to 15% of their weight in moisture, adding unnecessary weight and stress on the roof's supporting structure. Hail, storm debris, and even walking can cause damage to conventional tile roofs.

DECRA Villa Tile blends the strength and durability of stone-coated steel with the traditional appeal of Old World elegance to beautifully stand up to hail, rain, fire, storm debris, and even hurricane-force winds.

Strength Against the Elements
