THE PREMIER PRODUCT IN THE INDUSTRY — THANKS TO EXTENSIVE TESTING AND ALUMALURE® 2000

During product development, Performance Metals products are subjected to a battery of relentless testing, including corrosion baths and accelerated UV weathering, to ensure that we retain our position as the premier product in the industry. Rest assured, all Performance Metals products possess stellar tensile strength, durability and weathering characteristics.

ALUMALURE® 2000

This revolutionary finish holds its color and resists the toughest corrosive elements — even UV radiation and polluted air. Applied in a two-coat process, AlumaLure® 2000 is a combination of rust-inhibiting primer and an ultra-tough, low-mar topcoat.

THE ISP™ DIFFERENCE — INTEGRATED STANDARDS OF PERFORMANCE

ISP™ is our comprehensive product development, testing, certification and quality control program. This stringent set of standards and conformance specs ensures products meet or exceed industry standards and/or code approvals. In addition, we go the extra mile with a battery of internal tests designed to predict and scrutinize performance attributes such as tensile strength, rigidity, wind resistance, color fidelity and weatherability.
